

EAVES ■ STONE

# INSPIRATION BOOK

■ VALUED CUSTOMER,

Here at Eaves Stone we know the options available in stone veneer and siding materials can be overwhelming. We want you to know we are here to help. At Eaves Stone we understand that, sometimes, inspiration can be found in a photo. The following pages contain a small sampling of projects we had the opportunity to help out with. The breadth and scope of stone veneer options we produce can be daunting to choose from so we would like to thank you for taking the time to view this “inspiration book.” Hopefully the following pages will provide some inspiration for your project and we look forward to discussing what Eaves Stone can do to “turn your inspiration into reality.”

Thank you,  
Ryan Eaves - *President, Eaves Stone Products*
